

RIAA Certification Costs

To cover the time and expense incurred by our certification and audit teams, we require the following fees:

RIAA member companies: \$350 per certification (please note "Bulk" discount rates below available to member companies)

Non-members: \$450 per level of certification (must be prepaid)

Please also note:

Any requests that do not meet the Gold & Platinum Program requirements will still be charged the full audit certification fee.

If multiple sales levels are certified simultaneously, the audit certification fee is only charged once per title to RIAA member companies. Non-member pay per level of certification requested.

If your company is requesting your first certification audit, we require that you also cover any travel expenses by our independent auditor.

A 30-day time limit is set for pending certifications. If a full audit cannot be completed within this time, \$100 will be rendered to member companies and \$200 to non-member companies.
